

FARWA IZHAR

Gujranwala, Punjab, Pakistan | +92 342 6200646 | farwwaaa@gmail.com

PROFESSIONAL SUMMARY

Results-driven BS Information Technology graduate specializing in Front-End Web Development, Data Analytics. Hands-on experience building and deploying responsive web projects, including a MERN-stack business website, coding blog, Amazon clone, and an ongoing Lost and Found final year project. Skilled in creating clean user interfaces, working with databases, and applying analytical problem-solving to real-world IT solutions.

TECHNICAL SKILLS

Web Development: HTML, CSS, Bootstrap, JavaScript, React.js, Front-End Web Development

Databases & Analytics: SQL Server, Data Cleaning, Data Modeling, Data Mining, Data Visualization, Excel

Programming & Tools: Git, GitHub, VS Code, MongoDB Atlas, Python Programming, PHP Basics, MS Office, Vercel Deployment

WORK EXPERIENCE

Junior Web Developer

Softix AI Solutions

- Worked as a Junior Web Developer for around one month, gaining hands-on experience with real-world web projects.
- Enhanced practical skills in JavaScript and React.js through front-end development tasks.
- Gained a basic understanding of PHP while supporting project-level development work.

Home Tutor

Home

- Helped students prepare for tests and examinations by providing subject guidance, practice support, and motivation.
- Strengthened communication, planning, and problem-solving skills by explaining concepts in a simple and understandable way.
- Maintained a supportive learning environment to improve student confidence and academic performance.

PERSONAL PROJECTS

Farhan Izhar Contracting & General Maintenance Business Website <https://farhan-izhar-contracting.vercel.app/>

Technologies: MongoDB, Express.js, React.js, Node.js, Vercel

A deployed MERN-stack business website for a contracting and general maintenance company, designed to present services, business details, gallery content, and contact/lead information in a professional layout.

- Built responsive pages with clean UI structure suitable for business users and service browsing.
- Deployed the project on Vercel and organized content for easy client presentation.

Coding Blog Website <https://blog-coding-six.vercel.app/>

Technologies: Bootstrap, CSS, Vercel

A responsive blog website created to display coding-related content with a clean front-end layout and readable user interface.

□ Focused on structured page layout, reusable UI sections, and smooth deployment workflow.

Amazon Clone <https://amazon-clone-peach-theta.vercel.app/> **Technologies:** HTML, CSS, Vercel

A deployed Amazon-style e-commerce landing page clone built to practice front-end layout, product sections, and responsive web design.

- Implemented product-focused UI sections and modern e-commerce page structure.

Lost and Found Platform

Ongoing

Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT, Multer

An ongoing final year project for reporting, searching, and managing lost/found persons and items through a centralized web platform.

- Working on user report submission, search/filter, comments, notifications, admin verification, and rule-based matching workflows.
- Designed flows for registered users, unregistered visitors, and admin panel operations.

Data Cleaning and Visualization

Technologies: Python, SQL Server, Excel

Solved multiple data cases by cleaning, organizing, and visualizing datasets to extract meaningful insights.

EDUCATION

Government Post Graduate Islamia College, Gujranwala

Dec 2022 - 2026

Bachelor of Science in Information Technology **Aspire**

Group of Colleges, Gujranwala

Sep 2020 - Jul 2022

Intermediate - FSc Pre-Engineering

Apr 2018 - Mar 2020

Government F.D Islamia Girls High School, Gujranwala Matriculation
- Science

CERTIFICATIONS

IT Specialist in Data Analytics - CertNexus & Pearson

Search Engine Optimization - NS Training

Graphic Designing - NS Training

Freelancing - NS Training

Spoken English - NS Training
